

2018 is a high quality educational and networking conference for infrared thermographers. Whether you're a beginner or seasoned professional, InfraMation is your chance to accelerate your knowledge and proficiency in thermal imaging applications and techniques, learning from the experts in your industry. Sun, 09 Dec 2018 17:31:00 GMT

InfraMation 2018 | The Leading IR Training Experience - Efficient vertical mobility is a critical component of tall building development and construction. This paper investigates recent advances in elevator technology and examines their impact on tall building development. It maps out, organizes, and collates complex and scattered information on multiple aspects of elevator design, and presents them in an accessible and non-technical discourse.
