Preventing and Treating Musculoskeletal Disorders: New ... - 1. Introduction. Young workers are more likely to be injured at work than older workers (Breslin and Smith, 2005, Laberge and Ledoux, 2011) and this appears to be related to inexperience. As shown by Breslin and Smith (2006), short job tenure is a stronger predictor of occupational injury than age. Similarly, Sorock et al. (2001) showed that work accidents happen more frequently while the worker ... Sun, 09 Dec 2018
